The Convergence Era: Where Risks Collide Resilience Emerges

RISK BEYOND 2026

ERMA INTERNATIONAL CONFERENCE ON ERM

Risk Beyond 2026 International Conference on Enterprise Risk Management is the 16th ERMA annual conference in Indonesia. We are entering a new era where geopolitical shifts, technological disruption, climate challenges, economic uncertainty, and societal change no longer unfold independently—they converge, creating unprecedented complexity and interconnected risks. In this Convergence Era, resilience is no longer merely about withstanding disruption, but about anticipating change, adapting with confidence, and transforming uncertainty into strategic advantage. Risk Beyond 2026 brings together global leaders, industry practitioners, and governance professionals to explore how organisations can navigate this new reality and emerge stronger in a rapidly evolving world.

The conference is specifically designed to provide risk management practitioners and academicians across the globe with a comprehensive insight into a wide variety of issues and challenges that organizations face in the new world that we are living today. This event would also facilitate a rich practice sharing and discussion among speakers, panelists, and participants from a wide-array of expertise.

With risk professionals and decision-makers from various backgrounds attending the program as both speakers and participants, Risk Beyond 2026 offers a unique and special opportunity to communicate your commitment to good corporate governance, risk management, and compliance practices.
